Parking structure 2 rooftop cinema

Parking structure 2 is used by SMC Emeritus students attending classes in the building located next to the structure. Please ask Downtown Santa Monica to work with Associate Dean Scott Silverman to ensure that the night cinema does not negatively impact the students.

The stated tentative start time of 6pm should not present a problem, as students are gone by then. However, if parking is displaced earlier for setup, or storage, it could present a problem.

These students are Elders. To ask them to walk further from other parking structures is rude. Hopefully these students will be respected.

Sincerely,
Nancy M. Morse
